

ANEC comments on draft Rolling Plan for ICT standardisation 2018

[3.1.6. Cybersecurity / network and information security \(RP 2018\)](#)

This section needs updating. After several years of submitting detailed comments about the Commission's and ESOs' activities, we have noticed too much updating is necessary and it just does not happen (eg: why is CEN-CLC TC 13 not mentioned?)

[3.2.1 eHealth, healthy living and ageing](#)

This section needs updating. After several years of submitting detailed comments about the Commission's and ESOs' activities, we have noticed too much updating is necessary and it just does not happen (eg: the previous text on the 2015 framework is also still included)

[3.2.3 Accessibility of ICT products and services \(RP2018\)](#)

This section needs updating. After several years of submitting detailed comments about the Commission's and ESOs' activities, we have noticed too much updating is necessary and it just does not happen.

[3.3.3 Card, internet and mobile payments \(RP2018\)](#)

This section needs updating. After several years of submitting detailed comments about the Commission's and ESOs' activities, we have noticed too much updating is necessary and it just does not happen (eg: the previous text from 2014 is also still included)

[3.4.2 Smart cities / technologies and services for smart and efficient energy use \(RP2018\)](#)

After several years of submitting detailed comments about the Commission's and ESOs' activities, we have noticed too much updating is necessary and it just does not happen (eg: The SSCC-SF is of course up and running!). Also we question action 1 as s perhaps proprietary.

ENDS.

ANEC is the European consumer voice in standardisation, open to representation of the national consumer interest in 33 countries (those countries holding full membership of CEN-CENELEC). Its volunteer experts participate in about 130 technical bodies of CEN, CENELEC & ETSI, and about 25 technical bodies of ISO & IEC. ANEC also represents the collective consumer voice in the development of European public policies and legislation that may use European standards to support their implementation, and in issues related to conformity assessment, accreditation, market surveillance & enforcement. It is an "Annex III Organisation", supported by the EU (& EFTA) under Regulation (EU) 1025/2012. www.anec.eu
